Signing in on site

Please make a habit of signing in and OUT of site every day. This seems to be an ongoing issue, and this would help the site team to know who is on site and when just in case an emergency was to happen.

Condition of plots

We all guilty of leaving plots in an untidy state. If we could just keep on top of the clearing up it would all help to make the site a safer place. If the plot is untidy before you start work, please speak to the site team and I am sure they will help. It is in everyone's interest to keep the site clean and tidy.

Personal protective equipment

Site is a dangerous place to work in. So please wear the relevant PPE in the environment you are in. You are supplied with the correct equipment please make sure this is in a satisfactory order, if not please contact office so we can get you a replacement. If it is a gloves site please wear them. These items are there to protect you all.

Site Walkways

Whilst walking around site please keep to the designated walkways. These are there for you get around site safely. If you see a barrier is down pick up and put it in the correct place or let the site team know so this can be positioned in the correct place. This could save someone or even yourself being involved in an site accident.

Storage of materials

We provide a container on site or even site make garages available, so we can store the appropriate materials for you to be productive on site. Please ensure returns are sent to the office and all excess materials are stored in the storage provided. No materials are to be left in plots as these go missing and get easily damaged.

Lighting whilst working

Now summer is a distant memory the clocks have changed, and the mornings and afternoons are getting darker please make sure you have adequate lighting to complete works safely. If you have any issues, please contact the office. This will tie in with the condition of plots to be clean and tidy

Accidents

Please make sure you know where the accident book is kept and who the first aider is. If an accident does occur, please make sure you fill the accident book in full. If you can't for some reason fill it out yourself please ask someone to fill out on your behalf.

Condition of Tools

Please regularly check your tools. These will tie in with the pure sheets we fill out. If your tools require PAT testing please contact the office to arrange.
